

# TOYIB AHMED

*Senior Software Engineer*

## PROFESSIONAL SUMMARY

---

Senior Software Engineer with 7+ years of experience in developing scalable web applications and leading front-end technology implementations. Proficient in JavaScript, Node.js, and a variety of front-end frameworks, with a strong focus on mentoring team members and fostering a culture of collaboration. Skilled in optimizing CI/CD pipelines and integrating advanced technologies like GraphQL and serverless architectures to enhance system performance and reliability.

## SKILLS

---

JavaScript, React, TypeScript, Ember, Figma, Java, Kotlin, Node.js, Next.js, HTML5, CSS, Git, Bash, Sentry, Apollo, SQL, Jenkins, Datadog, GraphQL, AngularJS, CircleCI, Handlebars.

## EMPLOYMENT HISTORY

---

### SENIOR SOFTWARE ENGINEER

Mar 2024 - Present

#### *Phorest Salon Software*

- ◆ Developed and maintained scalable web applications using Ember.js and Handlebars.js, delivering high-performance front-end solutions.
- ◆ Implemented Apollo GraphQL integrations with Node.js backends to enhance API communication and streamline data handling.
- ◆ Designed and optimized CI/CD pipelines with GitHub and CircleCI, incorporating Sentry for monitoring and maintaining code quality.
- ◆ Built and maintained distributed, event-driven systems using Docker, serverless technologies, and infrastructure-as-code pipelines.
- ◆ Mentored team members through pair programming, code reviews, and technical guidance, fostering a culture of collaboration and continuous improvement.

### SENIOR SOFTWARE ENGINEER

May 2021 - Mar 2024

#### *Topia*

- ◆ Implemented and enhanced components in the Topia UI design system based on designs and requirements.
- ◆ Independently developed multiple mobility applications using React, TS, and Topia design systems, serving thousands of users.
- ◆ Successfully delivered MVP products using React, UI libraries, and CSS for client demos.
- ◆ Established development system with VCS (Git) and JIRA support for remote teams, quickly translating Figma designs into functional UIs.
- ◆ Collaborated closely with project managers for requirement gathering, estimation, and user story tracking in JIRA.
- ◆ Led frontend technology implementation, working alongside Java developers, and created test cases in React Testing Library.

### FRONTEND ENGINEER

Dec 2020 - May 2021

#### *Videolevels*

- ◆ Developed and designed UI for Elisa stage for registration and streaming live and pre-recorded videos using NextJs, Javascript, HTML5, and CSS.
- ◆ Development and continuous integration of the company's existing products using Javascript, Typescript, React, GraphQL and SQL.
- ◆ Participated in team meetings with the onsite team and corporate clients to understand the needs of the new implementation.

### FRONTEND DEVELOPER

Jun 2018 - Dec 2020

#### *BD Electronics*

- ◆ Assisted in transitioning the AngularJS back-office application, driving the migration from Angular to React.
- ◆ Developed and deployed batch jobs on Linux servers to efficiently upload product data to databases for e-commerce platforms.
- ◆ Solely managed front-end development for multiple projects, integrating design elements with application code to deliver cohesive solutions.
